Dear Ms. Johnson-Sullivan:

The Freedom of Information Act ("FOIA") is one of the most important tools for government transparency and accountability. In their mission to find waste, fraud, and abuse, the oversight and investigative committees of Congress, including the Committee on Oversight and Government Reform ("Committee"), are often assisted by tips, complaints, and briefings from media organizations, watchdog groups, and concerned citizens. These private-sector actors are often the first to become aware of federal inefficiency or malfeasance. FOIA allows them to scrutinize the activities of federal agencies. Without FOIA, they could not hold the government accountable, nor could they provide crucial assistance to Congressional oversight. President Obama recognized the importance of FOIA when he made it the subject of an executive memorandum on his second day in office.<sup>1</sup>

The Committee, as the principal oversight committee in the House of Representatives with broad oversight jurisdiction as set forth in House Rule X, is very interested in ensuring that all federal agencies respond in a timely, substantive, and non-discriminatory manner to requests for information under FOIA. To enable the Committee to understand the impact of recent changes to FOIA procedures and to evaluate agencies' compliance with FOIA, please provide the following information, records, and explanations by **February 15, 2011 at 5:00 pm**.

Provide your agency's FOIA log(s) for the five years preceding the date of this letter, in Microsoft Excel or a similar format that allows sorting by column or information category, including at least the following information: (a) the name of the requestor; (b) the date of the request; (c) a brief description of the documents or records sought by the request; (d) any tracking number assigned to the request by your agency pursuant to Section 7 of the OPEN Government Act of 2007<sup>2</sup>; (e) the date the request was closed, if it
