**COMMENTS:**Originally "Box 54" of the August 2013 delivery of FBI materials. This box contains "June Mail" interfiles that cannot yet be interfiled. See Notes.

**Notes:** This entry is for "Box 54" of the August 2013 delivery of FBI interfiles. It has since been split into "54" and "54A" to account for overfilling. The original FBI container inventory did not match the box contents so textual accessioning created a new container list. Most of the files in the boxes contain review flags. NDC advises that, because of the flags and improper/missing classification markings within the documents themselves, these records are not to be interfiled until they have gone through the declassification process. This HMS entry should be inactivated once declassification and interfiling are complete. See attachments.
