Subject: Freedom of Information Act (FOIA) Request 2023-00909

—

This letter is an interim response to your Federal Aviation Administration (FAA) FOIA request 2023-00909, submitted on October 27, 2022, in which you requested the following:

“A LISTING of LASER/UAS investigations during the last couple of years, extracted from the Regulatory Investigations Tracking System (RITS), operated by ASH (the Office of Security and Hazardous Materials Safety). Please provide all segregable releasable portions.”

We requested clarification from you that resulted in you revising the request to “a listing of Laser/UAS incidents.”

The Security and Hazardous Materials Safety, Office of National Security Programs and Incident Response (AXE) conducted an electronic search and located records responsive to your request. Enclosed are 339 pages of the listings of UAS incidents. The remaining listing of laser incidents is 2,008 pages and it is still being processed. We will provide these records on a rolling basis of 400 pages approximately every two months.

In the records we have redacted telephone numbers and sensitive security information. This information has been redacted and is being withheld from disclosure under Exemption 6 of the FOIA.

Exemption 6 of the FOIA protects information that pertains to an individual “the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.” 5 U.S.C. 552(b)(6). When applying Exemption 6, the FAA weighs the privacy interest of an individual against any public interest in the records. Since no public interest was provided, we find that the privacy interest of another employee outweighs the public interest in the records.

You have the right to seek dispute resolution services from the FAA FOIA Public Liaison via phone (202-267-7799) or email (9-AFN-FOIA-Public-Liaison@faa.gov) noting FOIA Public Liaison in the Subject or the Office of Government Information Services

(<https://ogis.archives.gov>) via phone (202-741-5770 / toll-free--1-877-684-6448; fax--202-741-5769); or email (ogis@nara.gov).

Sincerely,

Subject: Freedom of Information Act (FOIA) Request 2023-00909

This letter is the second interim response to your Federal Aviation Administration (FAA) FOIA request 2023-00909, submitted on October 27, 2022, in which you requested the following:

“A LISTING of LASER/UAS investigations during the last couple of years, extracted from the Regulatory Investigations Tracking System (RITS), operated by ASH (the Office of Security and Hazardous Materials Safety). Please provide all segregable releasable portions.”

We requested clarification from you that resulted in you revising the request to “a listing of Laser/UAS incidents.”

The Security and Hazardous Materials Safety, Office of National Security Programs and Incident Response (AXE) conducted an electronic search and located records responsive to your request. Enclosed are the next 400 pages of the listings of laser incidents. The remaining listing of laser incidents is 1,608 pages and it is still being processed. We will continue to provide these records on a rolling basis of 400 pages approximately every two months.

In the records we have redacted telephone numbers and sensitive security information. This information has been redacted and is being withheld from disclosure under Exemption 6 of the FOIA.

Exemption 6 of the FOIA protects information that pertains to an individual “the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.” 5 U.S.C. 552(b)(6). When applying Exemption 6, the FAA weighs the privacy interest of an individual against any public interest in the records. Since no public interest was provided, we find that the privacy interest of another employee outweighs the public interest in the records.

You have the right to seek dispute resolution services from the FAA FOIA Public Liaison via phone (202-267-7799) or email (9-AFN-FOIA-Public-Liaison@faa.gov) noting FOIA

Public Liaison in the Subject or the Office of Government Information Services
(<https://ogis.archives.gov>) via phone (202-741-5770 / toll-free--1-877-684-6448; fax--
202-741-5769); or email (ogis@nara.gov).

Sincerely,
