Via email

This letter is our final response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of March 19, 2024, assigned #24-00830-FOIA, for:

1) A copy of the most recent CDC Media Relations Weekly Report. 2) A copy of the CDC Media Relations contact log(s) for the period January 1, 2024 to the present. 3) A copy of the CDC Media Relations Office guidelines to providing CDC cooperation/support/access to motion picture and television projects. 4) A copy of the most recent list(s) of motion picture and television projects seeking and/or receiving CDC cooperation/support/access.

We located 1 spreadsheet of responsive records for items #1 and #2 of your request. After a careful review of this spreadsheet, no information was withheld from release.

Program staff have provided the below information:

CDC does not currently maintain guidelines for engaging in film production, but the general rule is if film makers/producers reach out for "one-off" (spontaneous) interviews, they are triaged the same way as media calls, which is to immediately engage with our program colleagues for a determination and action. Due to the spontaneous nature of these calls and their immediate resolution, there is no record of these calls nor is there continuing participation on CDC's part.

Therefore, we have no records to provide for items #3 and #4 of your request. If you would like to submit a follow-up request for a specific production or program that may have consulted on a particular project, please feel free to do so.

If you need any further assistance or would like to discuss any aspect of the records provided please contact either our FOIA Requester Service Center at 770-488-6399 or our FOIA Public Liaison at 770-488-6246.

Sincerely,

A handwritten signature in black ink, appearing to read "Roger Andoh".

Roger Andoh
