Re: **2020-HQFO-00772**

This is the final response to your March 29, 2020, Freedom of Information Act (FOIA) request to the Department of Homeland Security (DHS) for any emails, notes, pages from the SWO Log regarding the Coronavirus COVID-19 PANDEMIC, from January 1, 2020, through March 30, 2020. This office received your request on March 30, 2020.

A search of the DHS Office of Operations Coordination and Planning (OPS) for documents responsive to your request produced 113 pages. I have determined that the pages are partially releasable pursuant to Title 5 U.S.C. § 552: (b)(6), FOIA Exemption 6.

Enclosed are 113 pages with certain information withheld as described below:

Exemption 6 exempts from disclosure personnel or medical files and similar files the release of which would cause a clearly unwarranted invasion of personal privacy. This requires a balancing of the public's right to disclosure against the individual's right privacy. The types of documents and/or information that we have withheld may consist of birth certificates, naturalization certificates, driver license, social security numbers, home addresses, dates of birth, or various other documents and/or information belonging to a third party that are considered personal. The privacy interests of the individuals in the records you have requested outweigh any minimal public interest in disclosure of the information. Any private interest you may have in that information does not factor into the aforementioned balancing test.

Pursuant to DHS Instruction 262-11-004, FOIA Officers at DHS have been instructed to withhold personally identifiable information (PII) and sensitive personally identifiable information (SPII) of DHS personnel unless a determination is made that the disclosure does not raise security or privacy concerns, or if those concerns are outweighed by any public interest in that information. This policy is available online. Under this policy, the names of senior leaders, spokespersons, and political appointees are generally releasable. With respect to this FOIA

request, DHS may have applied FOIA Exemption 6 to protect PII of DHS employees, including names and contact information. To the extent that has DHS withheld employee PII within these records, it has been determined that the employee(s) has/have substantial and legitimate privacy interests and that these interests are not outweighed by any public interest in the operations of the Department.

You have a right to appeal the above withholding determination. Should you wish to do so, you must send your appeal and a copy of this letter, within 90 days of the date of this letter, to: Privacy Office, Attn: FOIA Appeals, U.S. Department of Homeland Security, 2707 Martin Luther King Jr. Avenue, SE, Mail Stop 0655, Washington, D.C. 20528-0655, following the procedures outlined in the DHS FOIA regulations at 6 C.F.R. Part 5 § 5.5(e)(2). Your envelope and letter should be marked "FOIA Appeal." Copies of the FOIA and DHS FOIA regulations are available at www.dhs.gov/foia.

Provisions of FOIA allow DHS to charge for processing fees, up to \$25, unless you seek a waiver of fees. In this instance, because the cost is below the \$25 minimum, there is no charge.

You may contact the DHS FOIA Public Liaison at 202-343-1743 for any further assistance and to discuss any aspect of your request. You may also contact OGIS at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you need to contact our office again about this matter, please refer to **2020-HQFO-00772**. This office can be reached at FOIA@HQ.DHS.GOV or call 202-343-1743 or toll free 1-866-431-0486.

Sincerely,

Angela Washington
Senior FOIA Analyst

Sector OU-GAL was notified by CBP that Cruise Ship (C/S) ENCHANTMENT OF THE SEAS (Flag: Bahamas) reported a 22 year old Chinese female crewmember had presented flu-like symptoms while the vessel was moored at Port of Galveston. The crewmember departed from Beijing on January 14 and arrived in Houston George Bush International Airport on January 15. The crewmember is from Wuhan Province in China, but it is unknown when the crewmember was last in Wuhan Province, or for how long. The crewmember has been onboard the vessel for the entire time since she embarked in Houston on January 15. The royal Caribbean medical staff contacted the CDC yesterday evening. CDC assessed the crewmember DID NOT HAVE the Novel Coronavirus, and recommended royal Caribbean and CDC treat this as normal flu. The crewmember is NOT being treated for or tested for Coronavirus. The crewmember is isolated in the ship's medical quarters and will be restricted to the ship. Sector HOU-GAL has been in contact with CDC for recommendations and is not putting in place any COTP orders or restrictions. The vessel will depart Port of Galveston today and will proceed to ports in Mexico and return five days later to Galveston. Sector HOU-GAL is attempting to determine what the vessel's last five ports of call were and what the next five ports of call will be. The CIC process was stood down. 1204: Rcvd MMC Update 76; DHS Authorizes 3 Additional U.S. Airports to Accept Flights from China.</p>

US Navy Imposes 14 day quarantine between port calls for ships in Europe amid coronavirus worries. 0732: CIC Conference Call: Sector San Francisco has initiated CIC. Possible coronavirus on cruise ship. Port of San Francisco had received notification from Princess Cruise HQ that the Grand Princess (home ported in San Francisco) that on 11 Feb – 21 Feb trip, a passenger had disembarked. This passenger had shown signs of flu systems, and had since been tested for COVID-19 presumed positive (but not confirmed). A second passenger (cabin mate of first) has also shown symptoms but has not been tested. First passenger is in Sonoma County. Second passenger is presumed to be in bay area. Steward who serviced the cabin has also shown symptoms. This crew member was disembarked in Hilo and tested negative for Covid-19. The first patient is being reported by media as critically ill and is now deceased (not publicly released). On the ship's second cruise from 21 Feb to 7 Mar, 10 crewmembers and 11 passengers are exhibiting symptoms. 70 passengers are still onboard from previous (11 Feb - 21 Feb) cruise. Max capacity is 3100 passengers and 1100 crew. Currently verifying numbers of people on the vessel. Had teleconference with port of San Francisco and mayor of San Francisco and San Francisco health officials. Discussed how to proceed. Ship has been communicating with CDC. Ship is due to return on sat Mar 7. Ship is underway from Hilo, scheduled to port call in Ensenada Thursday and return to San Francisco on Saturday. CDC recommends they bypass Ensenada and go to home port on Friday (one day early). Governor plans to have press conference. Unified command has been established. Actions upon arrival of cruise ship are TBD. Follow on call will be conducted at 1230ET. 0733: SWO sent COVID-19 Placemat and DHS CAT Events of the Day to NOC-Incident-Reporting 0753: Rcvd MMC Update 226: "Multiple Countries Confirm Additional Cases; Iraq Reports First Death." 0757: Rcvd CWMD NBIC Daily COVID-19 Slide. 0806: Rcvd HHS SOC Operational Schedule.</p>

1922: Rcvd MMC Update 249: Illinois Reports First Case, Cases Double To 22 in New York.
1330: AS1 USCG call convened: one passenger over past 24hrs have become ill. 68 passengers on this ship were also on the previous cruise. All 34 ill individuals are quarantined in cabins on 5ship. Assets are airborne to deliver 100 test kits to the ship, with 2 USAF reserve medics and one CDC employee. There will be a second mission at a later time to return to ship and retrieve the test kits and fly the kits to a testing facility. CDC/ state health experts re developing a plan to deal with different possible test results. Depending on results, ship may not be allowed into port at San Francisco, it may go to another port.

2115: CIC Conference: (Briefer is Capt. of Port). Princess Line Rep is in SF physically and are integrated into response---some will go to Sacramento and some will remain on scene. Results of air operation sampling today, 1 rep from CDC and 4 PJs to assist in taking samples. 44 samples were taken and have gone to Richmond. Plan was rest of 100 would also be taken today and though lab would stay open tonight for results early tomorrow morning. Sacramento UC briefed lab has rcd samples but have not determined lab would stay open to run samples. Public had already been briefed so became a trust issue. Cutter has 200 kits still, discussion why process not moving as quickly as possible, 3500 people on vessel. 250 kits that could be run tonight but unknown if they will be run – issue being addressed "off line." Don't know why process is being stalled. Asking if anyone can move process along. Left question of whether or not tests are being run. BREAK – need to address facts only for CIC. Want to address any other open issues as part of Unified Command. Capt. of Port continued above. Q: Vessel is not in port in Sacramento? A: Vessel is 70 miles west of Golden Gate Bridge. Standing down from CIC Process.

(District 7) 9 March request for MSC Riviera west of PR to medivac 87yo male with bilateral pneumonia. Determined safe and necessary to move, medevac'd with crew of 4. Monday tested for COVID-19, Sec of State reported test was negative. Media criticism of mishandling of testing when reported several tests no in good condition or not documented correctly. Tested second time (nasal swab better margin of error Thursday) came back as positive. Sec State called back and was notified, 4th positive on island. 87yo male from CA from MSC Riviera. Person who decided to bring ashore has been fired. Aircrew exposed 7 days ago, not isolated so interacted with crews and families for 7 days. Patient is still in hospital and has been since arrival. Unknown what precautions or PPE aircrew was wearing. (b)(6) would be best to advise on exposure. Any sense of time of contact with patient – was located 15 miles off shore for medivac to Mayaguez. Presented as pneumonia not COVID. GMCC: has San Juan started contamination protocols for crew? Command action to sequester? Doing it now. What was ship's location, pervious and next port of call? None in US but unknown and has since left Caribbean. Admiral Thomas joined (medical). Should have had PPE even with pneumonia. ... have had PPE even with pneumonia. Admiral Jones joined late and will talk to Admiral Thomas to get the information. Need to find location and ports of call. Last heard it was traveling to Italy. Denied entry to St Johns and Antigua and now on its way to Europe. Passenger was traveling alone. Crew PPE (Swimmer) mask and gloves with normal flight gear, Mech had normal flight gear but no mask (did not interact except to help pull patient up) Patient was wearing a non-rebreather mask. Was following guidance issued at that time to include re-wearing same gear on follow-on flight. Just interviewed and none of the aircrew or spouses/roommates are symptomatic at all. Listed at medium risk per flow-chart. Next step is self-monitoring for 14 days while coming to work. Mask of patient was off for a minute or so. Aircraft was cleaned after flight. Recommendation is monitoring and testing. CDC should be able to assist in testing at their local lab. Should be tested due to constant interaction to alleviate fears. Standing down CIC process.

2226: USCG CIC Call: District 14 has requested this call for a COVID-19 related issue on a cruise ship. Two cruise ships inbound to Honolulu. ~~Maasdam~~ (due in port 20 Mar) and Norwegian Jewel (due in port 22 Mar). Both ships were planned to debark all passengers upon arrival. USCG was informed that the governor of Hawaii said the two vessels can come to port to refuel and provision. However, no passengers or crew will be allowed to debark in HI. CDC has no COVID concerns with these ships. Governor of Hawaii has made this decision and understands CDC's views. Decision was made due to on-water protest activity. There is much pressure and protests to not allow these vessels into HI. Governor hopes the decision will allay the concerns of the on-water protestors. USCG concerned that once the ships leave HI it will be hard to find another port to debark the passengers. The Governor's concern is not for COVID but for public safety with the protests. USCG is concerned that if the vessels aren't allowed in port due to protests and can't disembark anywhere else, the vessels will need USCG support later while at sea.
2259: USCG CIC Call: Sector Houston-Galveston has requested this call to discuss COVID-19 and a possible closure of the port of Houston. Report from Port of Houston Authority of a stevedore who tested positive for COVID-19. The stevedore worked two container terminals driving a truck while exhibiting symptoms. The Port of Houston Authority is closing the two terminals to institute cleaning procedures and will work with the local health department.
